

Dynamic

Compact and easy to handle spreading machine, developed to allow for ultra-fast roll change.

Its cradle feeding system requires no axle for loading and operating, so rolls can be changed quickly, resolving the current needs for production environment.

The touch screen with its intuitive icons allow easy and direct programming, even by nonexpert operators. Thanks to its ergonomics and reduced cradle loading height, roll changes are carried out fast and without effort.

- Cradle feed system with flexible belts.
- Touch screen.
- Programming of spreads (quantity and distance).
- Reversible roller.
- Automatic edge alignment.
- Max. roll diameter: 50 cm.
- Available up to 3.25 m.
- Low maintenance.

TECHNICAL SPECIFICATIONS

Maximum spread height:	20 cm.
Maximum roll diameter:	50 cm.
Maximum roll weight:	60 kg.
Weight:	300 kg.
Voltage:	220 V single phase.
CE compliant.	

DIMENSIONS

A (m)	B (m)	C (m)
2,20	2,44	3,14
2,00	2,24	2,94
1,80	2,04	2,74

* Special machine sizes available on request.
